

TOWN OF HILL  
SELECTMENS MEETING  
MAY 20, 2008

Present: Mike Brady, John Lynch, Linda Henry (Assistant)

BOB LOMBARDI: Bob came in to discuss enlarging his existing driveway due to some issues with the town right-of-way. He said per the road agents request, he installed a larger pipe. John had an issue with him putting the driveway in the town right-of-way and said he cannot finish the driveway. Mike stated that this is a Planning Board issue and the Selectmen have no authority in the matter. A rather heated discussion took place regarding the whole right-of-way issue and Mr. Lombardi left the meeting with no resolution to the problem.

EARL MUNSON: Earl questioned his timber tax bill. John reviewed the scale sheets and said the report of cut appears to be filled out incorrectly. Earl said he had many problems with the logger and was given another sheet so he could redo the report of cut.

WATER DEPT: Gerry Desrochers brought in some paperwork for Mike to sign concerning the engineering services for the waterworks project. Gerry said they need an easement on the road to get up to the water tank and was given permission to obtain it.

GARY DAVID: Gary spoke about doing repair work around the compactor at the transfer station. He was given the ok to repair the pad under the trash compactor. Also discussed replacing the hydraulic lines.

MISC: Yield and excavation tax warrants were signed. Approved building permit application for John Ahlman on Tioga Road (R13-16-2).

NON PUBLIC SESSION: Selectmen entered into NPS at 8:20PM to discuss a potential assistance case. NPS ended at 8:40PM.

Meeting adjourned at 8:55PM.

Respectively Submitted,  
Linda J. Henry

Mike Brady

Mark Dow

John Lynch
