

POSITION OPENING

The Hill Water Commissioners are accepting applications for the position of Meter Reader.

The individual hired will be responsible, on a monthly basis, for retrieving the meter reading equipment from the Town Clerk's office, visiting each of the water meter locations (currently 139), accurately recording the meter readings and returning the equipment and meter readings back to the Town Clerk's office. The meter readings need to be taken on approximately the same day each month in order to provide consistent usage information for each month's bills.

The budgeted salary for the position is \$100.00 for each monthly meter reading cycle. The meters are located in the village area and along a portion of Route 3A, Old Town Road, Addison Road, and the beginning of Murray Hill Road. The mode and method of transportation will be the responsibility of the individual. The time commitment is expected to be approximately 7 hours each month.

Applications are available at the Town Clerk's office or the Selectmen's office during normal business hours.

The application deadline is December 9, 2009. Application review will begin at the Water Commissioner meeting that evening.
